

**Common Visual Identity** for European Networks of AI Excellence Centres

brand book

Version 01 - Issued in August 2023

sity College Cork, Irelan

Based on work of:

# Introduction

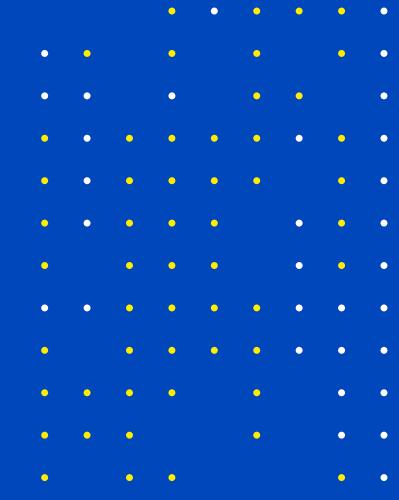

The Common Visual Identity has been developed for the European projects of the AI Networks of Excellence Centres (NoEs) in the areas of AI, Data and Robotics (ADR) funded under Horizon 2020 and Horizon Europe. These networks form a key element of the AI strategy pursued by EC comprising much of the leading AI competence across Europe.

As of 2023, the EU NoEs community includes the following nine projects: AI4Media, ELISE, HumanE-AI-Net, TAILOR (since 2020) ELSA, euROBIN (since 2022) ELIAS, dAledge, ENFIELD (since 2023)

The community is strongly supported by the VISION CSA project, and associated with the AI, Data and Robotics Association (ADRA), the private side of a public-private partnership that plays a key role in bringing knowledge from the European research community to industry.

More projects are expected to join the community based on the next EU calls.

Contact: info@vision4ai.eu

The purpose of the Common Visual Identity for European NoEs is to contribute to the visibility of the excellence of the European Union in AI research and innovation, and its commitment to achieving global leadership in the development and deployment of human-centric, sustainable, secure, inclusive and trustworthy artificial intelligence (AI) technology.

The Common Visual Identity shall:

- clearly indicate joint commitment to "European excellence in trustworthy AI";
- preserve distinct identities of particular entities;
- be easy to recognise and apply;
- be adopted beyond NoEs;
- provide a symbol that can act as the unifying modifier.

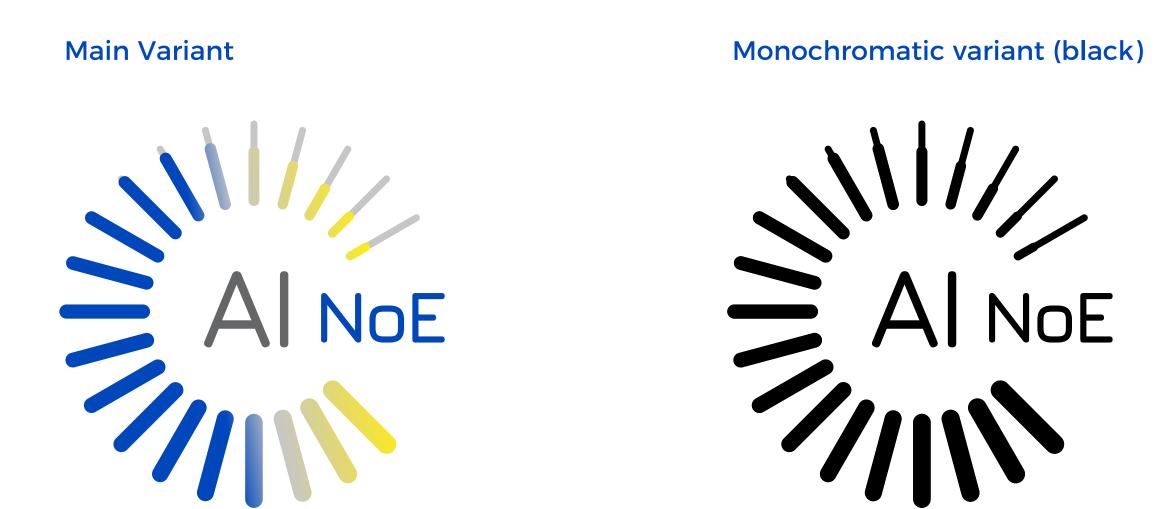

The design of the logo and guidelines for use have been developed by VISION in close consultation with the NoEs and the European Commission, as agreed by the European Commission at the Coordination Meeting of NoEs in March 2023 and confirmed by a community survey conducted in May 2023. It is based in part on the logo developed by teams of UCC and Loba in the context of their work on the Al-on-Demand platform.

### 1 | Logo and Logo Variants

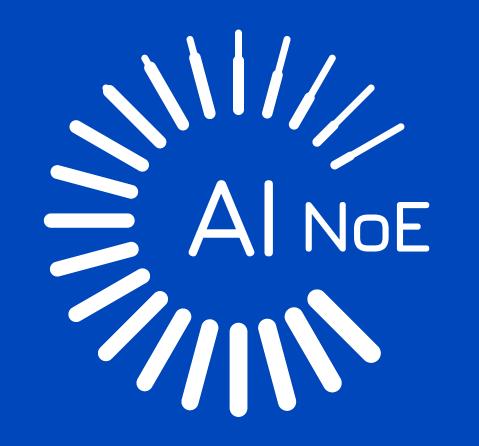

The Networks of Excellence are encouraged to use this logo in connection or next to their particular project logo to emphasize activities conducted by their Network of Excellence specifically and funded by the European Commission.

brand book

### Monochromatic variant (negative / white)

### 2 | Colors - Chromatic Codes

### main colors

Pantone 2736 C	Pantone yellow C	Pantone Cool Gray 5 C	Pantone Cool
CMYK 94   72   0   0	CMYK 4   0   100   0	CMYK 26   19   19   1	CMYK 57   46
RGB 0   71   187	RGB 255   237   0	RGB 197   198   200	RGB 100   101
#0047BB	#FFED00	#C5C6C8	#646567
associated meanings: trust knowledge security intelligence	<b>associated meanings:</b> optimism prosperity	associated meanings: neutrality	associated me seriousness technology

### colors

The chosen color palette is based on the colors of Europe. In addition to the colors used in the logo (main colors), a secondary palette was defined with two more shades of blue to make the communication supports more attractive.

### secondary colors

**l Gray 10 C** 5 | 44 | 32 1 | 103

neanings:

Pantone Reflex Blue C CMYK 100 | 84 | 8 | 0 RGB 0 | 51 | 153 #003399 Pantone 298 C CMYK 67 | 7 | 3 | 0 RGB 65 | 182 | 230 #41B6E6

ABCDEDGHIJKLMNOPQRSTUVWXYZ abcdedghijklmnopqrstuvwxyz 0123456789

**DOWNLOAD FONTS** 

This font is the primary font used in the logo.

secondary typography

## Montserrat

Light . Regular . Medium . SemiBold . Bold . ExtraBold . Black

ABCDEDGHIJKLMNOPQRSTUVWXYZ abcdedghijklmnopqrstuvwxyz 0123456789

**DOWNLOAD FONTS** 

This font can be used in additional text in one graphic material linked to the main AI NoE logo.

### 4 | Implementation Guidelines

The AI NoE logo will be most commonly implemented to the left of the particular project logo. The combined logos will be placed on the respective NoEs' websites, in presentations and further materials to emphasize their activities and results when addressing a broader audience within and beyond the NoEs.

# elise

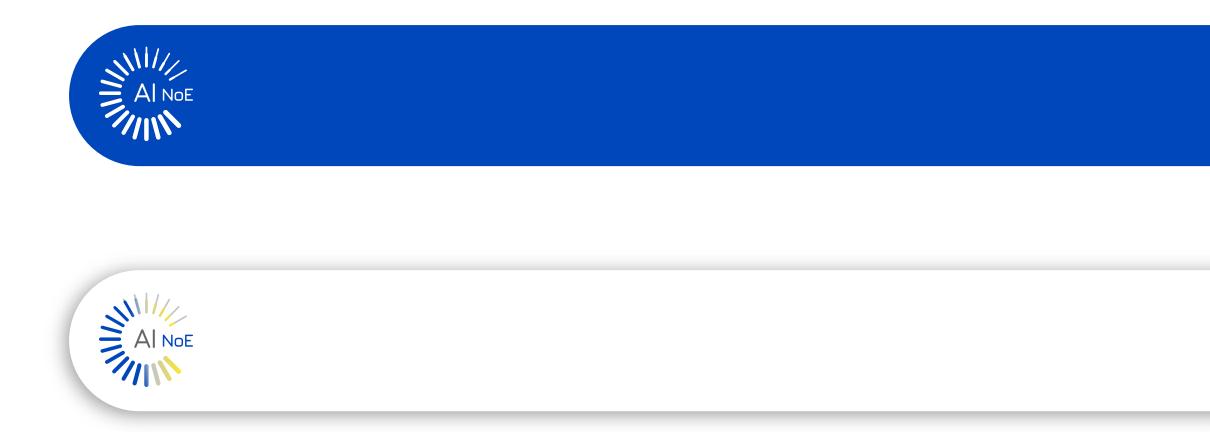

### 5 | Implementation - Options for promotional materials

### Assets

The visual identity can be implemented more visibly with full respect to the graphic design of the particular entities and tools (networks, events, products...) as a simple banner or bar (fullcoloured or in negative format) including the logos of the organising NoE(s), which can be placed elsewhere on graphic visuals.

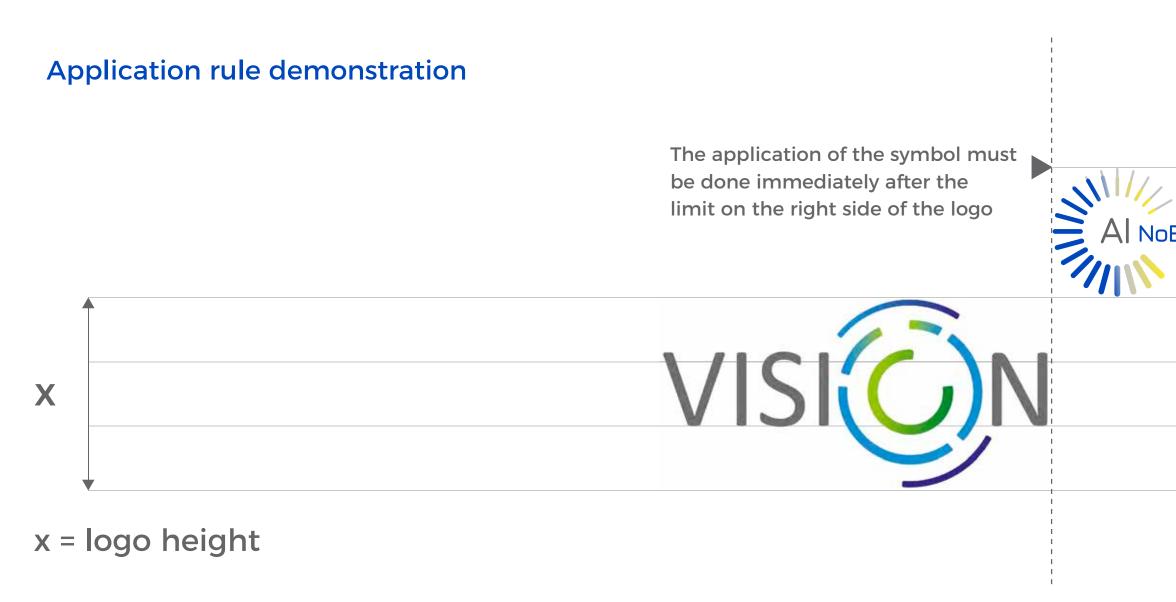

## Example of use

### 6 | AI NoE - Symbol integration into project logos as superscript

The specific AI NoE modifier can be used also as superscript in some specific occasions, especially at community events attended by a majority of / a large number of members of the EU funded networks and projects and/or a well-experienced audience involved in the community.

In such cases, the "AI NoE" logo can be integrated as a symbol into other project logos, thus indicating their affiliation with the NoE's ecosystem.

# A NoE

2/3 x

The modifier should be located to the right of the project logo as shown in the above diagram.

The platform symbol should be 2/3 the height of the project logo and be in the top right corner, like a trademark.
